

## **Environmental Policy**

**This Statement details Roocroft Fencing's commitment to the Environment**

**We intend to carry out our operations with minimal impact on the environment and use sustainable resources. We will achieve this through the following:-**

- 1. Training of all staff to become aware of our environmental aspects and impacts.**
- 2. Driving continual improvement and implementing an environmental management system that complies with EN ISO 14001:2004.**
- 3. Preventing pollution and reducing any adverse impacts of our operations on the environment.**
- 4. Reducing the amount of waste we send to landfill sites and recycling our waste and surplus materials as much as possible**
- 5. Using timber from sustainable sources, and purchasing materials from suppliers who are also adopting environmental best practise.**
- 6. Comply with all relevant environmental legislation and adopt any best practise initiatives.**

**Successful delivery of this policy requires the buy-in of all employees from office cleaner to managing director so we can all help make the future a better place.**

Joe Roocroft  
Managing Director
